

Write up Assignments
eSoc 488: Privacy Technology in Context
Due: Tuesday, 30 August 2018
Total Homework/Assignment Points: 100

In preparation for our speakers this semester, you are to write a response paper on the article assigned for the speaker's visit (if there are multiple readings, you may do the write up for one of your choosing, though you should do all of the readings).

Your response should describe the article's main points, assess its strengths and weaknesses, and explain the broader context in which the article should be seen. In addition, you should write three questions for the author; you will ask one of these in class. Part of your grade (10%) will be reserved to represent your performance during the speaker visit.
